WASHINGTON, June 29.—Gen. Shafter has reported to Gen. Miles that he can take Santiago in 48 hours, but indicates that the undertaking might evolve much loss. He is fully aware of the approach of Spanish reinforcements and it is believed here that he intends taking the town immediately and that news of a battle might be expected at any moment.

WASHINGTON, June 29.—Gen. Shafter reports the health of the army remarkably good, the sick numbering less than 150. None of the Quasina wounded have died. The graves of the dead are marked for identification.

MADRID, June 29.—Advices from Manila say that the Spaniards have resolved to fight to the last and a desperate contest is expected as soon as the American troops arrive.

WASHINGTON, June 29.—The government will have two transports at New York, one on Saturday and one on Monday, capable of carrying 2000 cavalrymen and mounts.

It is believed that the rough riders and Torrey's cavalry are to be forwarded at once.

PORT ANTONIO, June 29.—American troops are now ready for a general advance on Santiago.

WASHINGTON, June 29, 11:45. Sampson's official report of the Santiago and Guantanamo action describes the silencing of forts and victories of marines, and says soldiers and sailors have done well and are aided by Cubans at all points.

WASHINGTON, June 29.—Gen. Shafter reports that 8000 Spanish troops from Manzanillo for the relief of Santiago are now within 54 miles of the latter city.

WASHINGTON, June 29.—It is stated that the First New York will start for San Francisco on Monday next.

WASHINGTON, June 29.—2 p. m.—Gen. Miles has received a cable from Gen. Shafter saying that Pando with 8000 men is advancing rapidly upon Santiago. There are 14,000 men in and about the city and 4000 near Guantanamo. Gen. Shafter may decide to take the city before the reinforcements arrive. The situation is regarded as serious.

CAIRO, June 29.—The Egyptian government has definitely decided to refuse to let Spanish fleet coal at Port Said.

WASHINGTON, June 29.—General Shafter reports that he will not wait for reinforcements, but move at once.

NEW YORK, June 29.—Admiral Sampson has definitely ascertained that Cervera has taken up position with his squadron near a high hill close to the entrance of Santiago harbor. He is perfectly safe there from shells of American fleet, but cannot do any damage to our fleet, nor can he train his guns on Shafter's troops.

On the river Guama June 28th, 4 p. m., via Port Antonio, June 29. Preparations for a general attack of the American troops on Santiago are being steadily pushed ahead.

NEW YORK, June 29.—Yale has returned after landing troops and supplies under General Duffield.

The Yale will go to Newport News for another complement of troops under General Garretson.

MADRID, June 29.—Manila reports that Prince Henry of Prussia is expected there to prevent the bombardment of Manila and it is believed that he will use German war ships to that end.

WASHINGTON, June 29.—It is believed in Administration circles that Camara's fleet is tied up at Port Said, and cannot coal or get through the Suez canal.

Berkeley Boys at Camp Barrett.

They Will Be Examined a Second Time on Thursday.

The members of Company F, thirty-five of whom are from Berkeley, reported last night at the armory in Oakland, many of them passing the night there. This morning they marched to Camp Barrett at the Sather tract, where primary preparations had been made by the advance guard.

Several members of the Columbia fire company are among the enlisted, and the remaining fire boys are preparing to take a lunch to them on Sunday next. They have been granted the use of a fire wagon by the Town Trustees. The company will probably march to the ferry and then to the Presidio, Thursday next, to pass the second examination under the regular army surgeon.

A Bicycle Accident.

Indiscriminate Riding Results Seriously.

As Miss Lucy Williams was walking down Dwight way Monday evening she was run down and severely injured by a bicyclist who was riding behind her. The shock rendered her unconscious and she was assisted by several ladies who came to her rescue. The young lady is a graduate of the University Class of '97 and has just returned from Paris. She is at present the guest of Mrs. Prof. F. V. Paget of 2727 Dwight way.

The pernicious practice of riding on the town sidewalks is a gross violation of the law, and all transgressors should be severely punished.

Another School.

Mr. Lewis of the Mt. Tamalpais Military Academy has secured a five-year lease of "Glen de Lough," the palatial home of the late Dr. M. C. O'Toole of North Berkeley. The school will be for boys only, and will add to Berkeley's already long list of private institutions.

Chas. E. Thomas has taken charge of the GAZETTE subscription department, as city circulator, vice A. Tully retired. He is authorized to receive subscriptions and collect therefor, and have control of routes, carriers and solicitors in the city of Berkeley and vicinity.

An Enthusiastic Meeting

North Berkeley Improvement Club Discuss the Water Question.

The regular meeting of the North Berkeley Improvement Club was called to order by President Weir last evening. The principal subject of discussion was the water question. The committee, consisting of Warren G. Sanborn, Victor Robertson and John McCarthy, who were appointed to circulate a petition regarding the advisability of issuing bonds for the building of a water system, made their report. They announced that the Town Trustees had taken action upon the matter and had appointed the following gentlemen to outline a plan of action: Dr. Thomas Addison, Julian Le Conte and E. F. Niehaus.

The club was much gratified at the way in which the Trustees had treated their petition, and many speeches were made touching on the same.

The Health Officer, Dr. H. N Rowell, complimented the activity of the club, and offered his assistance to any of the club's efforts in bettering the town's sanitary condition.

Moonlight by the Sea

Last evening a party of young people, chaperoned by Mr. and Mrs. Frank Naylor and Mr. and Mrs. William Squires, enjoyed a picnic at Bath Beach. Taking the 6 o'clock car they were met at West Berkeley by the "Sunset City," and drixen over to the beach, where everything had been prepared for their reception. The dining-room and kitchen had been rented, and while part of the young people took a plunge in the briny deep the others prepared dinner, which was heartily enjoyed by all after the invigorating effect of the salt sea air. The water was just warm enough to be comfortable and make bathing a delight.

After some time spent in watching the moonlight play upon the waves as they dashed in, reminding one of a sea of shimmering silver, the party returned to East Berkeley at 10 o'clock, and it was hard to leave that delightful resort even at that late hour.

A Successful Visit.

Rev. J. W. Webb, who has been the guest of Carrier Paynton, went north this evening. Rev. Webb's visit to the bay cities has been characterized by great success, and the lectures given in Oakland, Berkeley and San Francisco, have been well attended and creative of much interest in the temperance work. He goes to Portland to labor in that city, from whence he goes to the Plebescite in Canada.

A Sunday School Picnic.

A happy throng gathered at the West Berkeley Methodist Church this morning to attend the annual picnic of the Sunday school. Wagons had been provided for the occasion, and the jubilant young people at once commenced to make merry as they proceeded to Rockridge Park. The affair was under the management of Mrs. Wheeler and Miss Annie Dickieson.

An Exportation of Oil.

The El Dorado Linseed Oil Works shipped a tank car of cocoanut oil to Kansas City today. This is another instance of the appreciation of Berkeley's manufacturing.

ECONOMY MUST BE EXERCISED.

Trustees Confronted With a Financial Problem.

Expenditures of the Fire Department—A Healthy Condition of Our Local Department.

The estimate of resources and expenses for the five months ending October 1, 1898, will be the means of causing the Town Trustees much trouble. The estimate is prepared in advance to advise the finance committee of the board as to what course they must pursue in expending the town's money. The appraised excess of expenditures over the resources is $4046. This simply means that expenses must be cut off somewhere, and it is probable that the street department will be the sufferer.

The tax money for next year will not come in until November 1, 1898, and the Trustees will be compelled to tide over the situation until that time. The following is the official statement:

Estimated expenditures—Salaries $1875, electric lights $2675, rents $154, sprinkling streets $7500, fire department $600, hydrants $650, office supplies $250, printing $125, advertising $200, law expenfes $250, sundries $500, street repairs $1000; total, $18,779.

Resources—Balance on hand, general fund, $10,057, street fund $691; receipts, taxes $1485, licenses $2500; total, $14,733. Estimated excess of expenditures over resources, $4046.

Expenditures of the Berkeley Fire Department from July 1st, 1897, to June 13th, 1898:

Hauling apparatus to fires $219, watchmen on Fourth of July $42, watchidg fires $33, purchase of new hose $1,025.82, lamps etc. $72.70, care of apparatus $355.85, feed and care of horse $87.31, shoeing horse $8, rent of buildings and grounds $223, fuel $13.40, supplies $212.82, miscellaneous repairs $176.04, Columbia house $732.80, Beacon hose $919.35, electric lights $302.85, Columbia bell $44.64, repairs to Lorin apparatus $50, repaires to Lorin house and Taylor's bill $178, repairs to Posen apparatus $60, repairs to Beacon apparatus $28, repairs to North Berkeley aparatus $20, gongs $40, new hose carts $501.75, total $5,296.33.

An Unusual Visitor.

A coterie of street gamins were exhibiting about town yesterday afternoon the body of a lynx that had been killed by Mr. Peterson, the coachman of Anson Blake, who lives at the head of Bancroft way. The animal was about three feet in length and had been preying upon the domestic fowls in that vicinity.

West Berkeley Arrests.

James Palmer was arrested yesterday by Deputy Constable Ehinger for disturbing the peace, while the same officer gathered in Thomas Ryan and James Davis, vagrants.

West Berkeley Red Cross.

The Local Branch Elects Officers for Two Weeks.

At a meeting of the Red Cross yesterday afternoon at the residence of Mrs. Wheeler an election of officers was held, who will hold office for the ensuing two weeks. Those elected were: President, Mrs. Wheeler; secretary, Mrs. Livingston; treasurer, Mrs. Dickieson.

It was resolved to notify the pastors of the town of the result of the election. Any one wishing to join the Red Cross will find a book in the free reading room in which to sign their names. Contributions of any kind should be left with Mrs. Dickieson at 954 University avenue, while badges may be procured from Mrs. Wheeler, 771 University.

The Great Quazina

Is engaged to appear with the Oakland Dramatic School in their grand benefit tendered to the Ancient Order of United Workmen, Lodge No. 2. Quazina has just completed a successful engagement with the Orpheum Circuit and is considered to be one of the best dancers on the coast. He will dance his famous dance, "Cuba and America." No one should miss this rare opportunity to see this wonderful dancer; also the rattling comedy, Stronger Than Gold," in three acts, by E. M. Owen. The unusual strong cast consists of the following ladies and gentlemen: Miss Maude Durand, Meriva Vincent, Miss. Barbagelatu and "Carkebeau," Prof. Bothwell Browne, Mr. W. S. Durand, Mr. George D. Carter, Mr. Charles H. Purdy, Mr. J. W. Byers, Mr. Jack Bidwell and Mr. F. M. Owen, instructor of Oakland Dramatic School. Dietz Opera House, Thursday, June 30, 1898. Admission, 25 cents; curtain rises at 8:15.

Remembered by His Friends.

Mr. C. Y. Woods of 2724 Ellsworth street, has laid upon our table a copy of the Liberty "Advance," which contains an amusing article from Judge C. Crouse, a well-known German of that city, which explains to his German brothers across the sea the condition of our country.

Mr. Woods was personally acquainted with Judge Crouse for a number of years at his old home in Missouri, and receives the article with much pleasure.

A New Quarter.

A force of men representing L. Williamson, the successful wall paper and paint merchant of Shattuck avenue, are remodeling the Golden West Bakery next to the GAZETTE. The old wall paper is removed by immersion and pealed off with sharp instruments, preparatory to adding a handsome new coat of wall paper.

A Short Vacation.

Faithful Workers Deserve a Period of Rest.

The Red Cross ladies were busy yesterday at headquarters and sixty-two plaster bandages were made and were shipped today. There will be no more work for a few days, as there is no material to work upon. However the ladies are very busy preparing for the Fourth of July dinner, which is to be given in Shattuck Hall, the use of which has been generously tendered by Mr. Shattuck. This will make the work much easier and afford greater opportunity for artistic display.

The dinner will be given for the small sum of 25 cents and will consist of everything the market affords. It will be served by attractive young ladies. Ice cream and cake will be served at 15 cents. There will also be lemonade and candy for sale in this department. The decorations are to be in the national colors, intermixed with greens, and a band will disperse sweet music during the evening. All donations of food are to be sent to Shattuck Hall Monday morning any time after 8 o'clock.

Another Misfortune.

Thieves Pay a Visit to Mr. Boyson's Chicken Ranch.

Louis Boyson, whose house in South Berkeley burned a few days ago, had another misfortune last night. The family had moved to a house near Lorin station, and as the chicken house was still standing on the old lot the chickens were left there, and last night thieves broke the door in and made a raid. The flock consisted of 100 chickens but that number was lowered very materially. Mr. Boyson has not been able to ascertain the exact number stolen.

A Pleasant Gathering.

A delightful reception was given to Charles Harrison, who lately became a benedict, at his home in Oakland Monday evening.

Musical selections, vocal solos and toasts tended to pass the time quickly. The wee small hours of morning came only too soon and interrupted the pleasure of the party.

Inspecting Insects.

Prof. H. O. Woodworth, instructor of entomology in the University, has just returned from Southern California, where he has spent some weeks in studying the question of viticultural. He finds the cause of the extensive destruction of vines due to the existence of a new microbe which flourishes in dry seasons.

THE torpedo boat destroyer Terror is not so much of a terror as naval officers expected. The St Paul's five-inch guns were too terrible for the Terror at San Juan.

WHILE the subscriptions to the popular war loan are piling up thick and fast the government at Madrid can't borrow enough money, at home or abroad, to pay the milkman.

THE crack in Berkeley's charter has been giving the thoughtful citizen opportunity to muse on the practical effects of annexation and absorption. Not many citizens are getting up in their sleep in the dead of night to shout for a consolidated city on this side the bay.

THE Oakland Enquirer of Monday says: "The County Supervisors deserve commendation for their prompt decision not to license any more saloons in the neighborhood of Camp Barrett. It was the proper and decent thing to do, and the Fruitvale Sanitary Board, whose preliminary action in the premises led to this wise decision by the Supervisors, deserve to share the credit."

THE Napa Register has this to say of the political situation in Alameda county: "In Alameda county there are two men of metal (Davis and Pardee) fighting for the governorship; likewise two candidates for Congress (Hilborn and Metcalf). Without entangling alliances the war has been sufficiently warm; with a combination (as reported) of the forces of Pardee and Hilborn, it will be red hot and the lines of division will be more marked than ever. If out of all this Oakland has the good luck to furnish the state a governor, Davis will doubtless be his name. And Davis would make a good one."

ASSEMBLYMAN WRIGHT.

Hon. Howard E. Wright is announced in this paper as a candidate for re-election as assemblyman for this, the Fifty-first district. There is a satisfaction in knowing that Mr. Wright has decided upon being a candidate for the second time. He has been a valuable man for Berkeley and the State institutions here. He was untiring in his efforts for the University of the new era, and his work in the past has been done with decorum and by careful, straightforward methods, and at no time has his energies failed in a worthy endeavor to promote the interests of his constituency. With his experience, a clear perception and ample command of language, he is always given due consideration and respect when he appears before his colleagues in the Assembly chamber. Berkeley's interests at the capital city—and she still has interests demanding careful husbanding—will be as safe in Mr. Wright's hands as any person who can be named for the position. We believe Mr. Wright's natural fitness, experience and former record are sufficient qualities upon which to base the favor of a renomination, and an election, for assemblyman for this district.

A PATRIOTIC MEAL.

It is earnestly hoped that the good people of Berkeley gave due attention to the appeal of the Red Cross Society in yesterday's GAZETTE. The program for the supper was properly outlined and the donations asked for can easily be supplied. The ladies have kindly placed their entertainment at an hour that will allow the people to enjoy the day at Oakland, San Francisco, or elsewhere, and only ask a portion of the evening for their very worthy cause. We all have a local pride, even when it comes to showing our patriotism, and on a special occasion like this there is no reason why 2000 meals shall not be ordered of the society on the evening of the Fourth. Let everybody arrange to miss or save a meal at home and take dinner with the ladies between 5 and 10 o'clock on the evening of "the day we celebrate."

ALAMEDA COUNTY NOTES.

ROUGH CAMPAIGNING

PROVINCE OF SANTIAGO DE CUBA A RUGGED COUNTRY TO FIGHT IN.

Our Troops Have Had to Climb Sharp Crested Hills, Ford Numerous Streams and Pick Their Way Through a Wilderness Almost Destitute of Wagon Roads.

The province of Santiago de Cuba, where our invading army first made a junction with the insurgents and where they have already indulged in much hard fighting, is one of the least known sections of the island. This is because it is the most inaccessible. Tourists have seldom if ever wandered into this eastern province, and the traveling newspaper correspondent has passed it by.

But of late we have been acquiring a good deal of information about the city and province of Santiago. Some thousands of Americans feel perfectly at home there now.

Santiago de Cuba is almost isolated from western Cuba by rugged mountains, and communication with Havana, Cienfuegos and other towns has heretofore been had by water. With the insurgents encamped in the hills and the American fleet lying outside the harbor the 70,000 people in the town and its suburbs are cut off from the outer world even more completely than the people of Havana.

No railroads connect the southern town with the western provinces of the island. One little railroad winds up through the mountains to the northward for a few miles, ending in the foothills of the Sierra de Nipe, and another, still shorter, climbs up to the iron and copper mines of the Sierra del Cobre. The only way of reaching any distant town is by mountain pass or wagon road.

Although seldom visited, the eastern province of the island is, as Columbus said, "the fairest land that the sun shines on or that the eye has ever seen." Colonel Rowan, in "The Island Cuba," says:

"In the province of Santiago de Cuba the range extending from Cape Cruz along the southern coast toward Cape Maysi forms a junction in the central and eastern parts with that traversing the middle of the island, creating, as might be anticipated, an intricate system of verdure clad elevations cut into sharp and well defined ridges known as cuchillas, or 'knife edged' crests, as distinguished from the series of peaks generally styled sierras, or 'saws.'

"The first mentioned range is called the Sierra Maestra, or 'Master' range,

SANTIAGO DE CUBA FROM THE HILLS.

and is the best defined mountain chain on the island. From Cape Cruz it rises first in a succession of terraces, and soon attains the altitude of 5,140 feet at the crest of the Ojo del Toro (Bullseye) peak, 20 miles from the cape. This increase in elevation is continued as the crest of the sierra is followed eastward until it culminates at a height of 8,320 feet or more in the celebrated Blue peak, or Pico Turquino, about half way between Cape Cruz and Santiago de Cuba.

"Near the Turquino spurs are sent toward the north into the valley of the Cauto as far as the vicinity of Bayamo, giving an undulating character to the south side of that famous tropical valley. From the Turquino eastward the name of Sierra Maestra is dropped, and that of Sierra del Cobre, or 'copper range,' is substituted. Here are found the copper mines of Santiago de Cuba.

"In the Cobre range, a short distance east of Santiago de Cuba, is a great block of conglomerate, measuring 150 feet in length by 45 feet in width, resting on the top of a truncated pyramidal peak 3,300 feet above the sea and known as La Gran Piedra.

"In this vicinity the southern coast range, the Sierra Maestra proper, is merged with the main backbone of the island coming from San Antonio on the west, and the maze of the cuchillas becomes now the dominating geographical feature, while a great number of streams rising close together send their waters into far separated seas.

"This extremely broken and precipitous country, occupying as it does a large portion of an entire province, has caused it to be the least known as it is the most difficult of access of any of the political divisions of the island. Roads here are few and poor, but the great diversity of products, due to the rapid change in the climate which is caused by the difference in elevation, makes the region one of the most wonderful in the world. The cascades, cataracts and natural portals, surrounded by an ever verdant foliage, combined with numerous species of flowering cactus and other tropical flowers and with animal life in all its gayest colors, present a picture such as is furnished at but few points on the globe."

Santiago de Cuba was the first permanent settlement made in Cuba. Owing to the town's inclosed situation the atmosphere is close and stifling, and the place is not healthy. It is the second commercial port in the island. Its principal exports are liquors, hides, cocoa, coffee, tobacco, guavas and pineapples. The daily yield of the copper mines in peace times is several tons. American capitalists own the iron mines.

All sorts of obstacles have been overcome by our troops in their siege of the city, for the country in which they have been fighting is probably as rough and rugged as any into which American soldiers have ever been sent.

C. T. BAXTER.

Moralists may prate, and doctors prose, and science shout from the housetop, but just so long as the birds sing and the flowers bloom, and a maiden's lips are cherry red, and a young man's eyes look love, just so long the lads and lassies will kiss—and kiss again.

And where, good men, is the harm if the kissers and kissees be healthy, and true love stands sponsor. It is only when ill-health has blasted the sweet cleanliness of youth that death lurks upon its lips. The deadly germs of dread consumption are as harmless as June-time butterflies to the young man or woman who is thoroughly clean, sweet and healthy in every fiber and tissue. The germs of disease only attack that which is already partly decayed.

There is a great medicine that is a sure and certain protection against all germs and a speedy cure for all germ diseases. It is Dr. Pierce's Golden Medical Discovery. It gives youthful zest to the appetite. It corrects all faults of the digestion. It aids assimilation. It fills the blood with the vital, life-giving elements of the food. It builds sweet, clean, healthy tissues in every part of the body. It drives out all disease germs. It cures 98 per cent. of all cases of bronchial, throat and lung affections if taken in time. All good medicine dealers sell it, and have nothing "just as good."

Mr. Jos. Henderson Dirblun, of 544 Josephine Street, New Orleans, La., writes: "I was ailing for some two years, suffering from dyspepsia, a tired feeling, and loss of energy and appetite. I tried one bottle of Dr. Pierce's Golden Medical Discovery and found great relief. I took two more bottles, three in all, and one or two vials of the 'Pellets,' when I was in good health again. I recommend Dr. Pierce's Golden Medical Discovery to do all that it is claimed to do."

A man or woman who neglects constipation suffers from slow poisoning. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic. All medicine dealers sell them. No other pills are "just as good."

To the Voters of Alameda County.

GENTLEMEN: We the undersigned, employees of the Oakland Consolidated Street Railroad Company, having heard through the press and other sources that our former Superintendent, Mr. A. K. Grim, is a candidate for County Recorder of this county, and we as employees having had long experience with him as Superintendent of the Grove street division of said Consolidated Street Railroad Company, and having confidence in his integrity and ability, and believing that the stand taken by him while Superintendent of said road in behalf of labor should entitle him to the unanimous support of the people of this county, we hereby recommend him to the voters of this county for the office of Recorder, and we hereby request the voters of said township to use every fair effort within their power to secure the election of a delegation to the next Republican County Convention favorable to Mr. A. K. Grim for said office.

ALTERATION SALE NOW IN PROGRESS

As a rule this is considered the dullest time of the year, but often circumstances make business, and just now, though we have merely intimated an increase in our store room, and are hardly through preparing our stock for the great reductions in prices, which are going to rule during this sale, our store was crowded with customers eager to take advantage of the many bargains marked out in all directions.

By to-morrow we expect to issue 20,000 pamphlets which will give some idea of our reduced price lists and show how money can be saved just now.

However, these pamphlets do not represent by any means the actual bulk of our stock, but are merely signs which indicate the general tend of prices which is taking place all through the house.
